CLAIM AMENDMENTS

Claims 1-7   (Canceled)

8.   (Currently Amended) An article comprising a medium for storing instructions that enable a processor-based system to:

difference a cached version and a current version of an Internet web page, ~~said Internet web page being provided to a browser from a web site for the web page~~;

indicate the difference between said cached and current versions; and

provide a graphical user interface of a navigation bar with a subtract button image, said subtract button image selectable to toggle between indicating the difference between said cached and current versions and indicating the current version.

9.   (Currently Amended) The article of claim 8 further storing instructions that enable ~~cause~~ a processor-based system to enable ~~cause~~ the difference between said cached and current versions to be displayed.

10.   (Currently Amended) The article of claim 9 further storing instructions that enable ~~cause~~ a processor-based system to blank the common material between the cached and current versions.

Claims 11-12 (Canceled)

13.   (Currently Amended) The article of claim 8 further storing instructions that enable a processor-based system to difference the ~~a~~ cached version and the ~~a~~ current version when the subtract button image is mouse clicked on.

Claim 14   (Canceled)

15. (Currently Amended) A system comprising:

a processor;

a storage coupled to said processor; and

said storage storing instructions that enable the processor-based system to difference a cached and a ~~most~~ current version of an Internet web page, ~~said most current version being received by a browser on said system from a web site for the web page,~~ indicate the difference between said cached and ~~most~~ current versions, and provide a graphical user interface of a navigation bar with a subtract button image, <u>said subtract button image selectable to toggle between indicating the difference between said cached and current versions and indicating the current version.</u>

16. (Currently Amended) The system of claim 15 wherein said storage stores instructions for <u>enabling</u> ~~causing~~ <u>the subtract</u> ~~a~~ button image to appear in a browser window which when clicked on automatically causes the cached version and the current version of <u>the</u> ~~an~~ Internet web page to be differenced.

17. (Currently Amended) The system of claim 16 including a display coupled to said processor, said storage storing instructions that <u>enable</u> ~~cause~~ the difference between said cached and current <u>version</u> <u>versions</u> to be displayed on said display.

Claims 18-19 (Canceled)

20. (Currently Amended) The system of claim 15 wherein said storage stores instructions that <u>enable</u> ~~cause~~ the processor to enable the user to select a button image to cause a processor-based system to difference the cached and current versions.

Claims 21-26 (Canceled)

27. (New) The article of claim 8 further storing instructions that enable a processor-based system to selectively cache a viewed page.

28. (New) The system of claim 15 wherein said storage stores instructions that enable the processor to selectively cache a viewed page.

29. (New) A method comprising:

retrieving a current version of an Internet web page to compare to a cached version of the page;

displaying a page including an indication of the difference between the current and cached versions; and

toggling between displaying said page including the indication of the difference and displaying said current page, said toggling in response to user selection of a single button on a graphical user interface.

30. (New) The method of claim 29 wherein displaying a page including an indication of the difference includes blanking the material common to said current and cached versions.

31. (New) The method of claim 29 including differencing said current and cached versions in response to user selection of a subtract button image on said graphical user interface.

32. (New) The method of claim 31 wherein toggling between displaying said page including an indication of the difference and displaying said current page includes toggling in response to user selection of said subtract button image.

33. (New) The method of claim 29 including displaying said page including an indication of the difference between said cached and current versions upon receipt of said current version.

34. (New) The method of claim 29 including retrieving said current version in response to user selection of an indicator on a list saved in a browser.

35. (New) The method of claim 29 including selectively caching a displayed page.
